XCESSORISE

Welcome to  
**XCESSORISE**  
by Elite Spas

Our furniture grade high-density polyethylene (HDPE) is made from 100% recycled plastic. It has a wood grain texture for traction, is solid color throughout (scratches won't show) and has a 5-year warranty against deterioration and fading. Some interesting attributes of HDPE are that it takes 8 milk jugs to make one pound of plastic lumber. Recycling plastic milk jugs uses 88 percent less energy to make than from virgin materials. Recycling one plastic bottle saves enough energy to power a 60W light bolt for 6 hours.

### 3-PIECE OUTSTANDING

Base unit houses ash pan, ash tool, damper, rain cap, grill gripper and spare charcoal. Drawer/door unit provides essential storage of key grilling elements. The space behind the door is large enough to store two 5-gallon pails or 18lbs of charcoal, smoking chips and chunks, grill cleaning tool and gloves. There's even a hook on the door to place the grid while starting the grill! The drawer space accommodates matches, fire starter, timer, flipper – plenty of storage space for all of your grille accessories and generous counter surface makes grilling a breeze!

Have to have a tad more room for the plate setter, chicken roaster, cedar planks, knife and cutting board? The Perfect set provides room for all that plus room for slide out waste basket.
